Agreed. I'm so low on this totem pole I'm just glad y'all take the time to talk to me. This isn't a deal at all. Y'all's help is greatly appreciated.

Fair enough but when Adm and Govr are announcing we can't guarentee the credit. We will keep pushing for it.

Cool. We sent the odor one out that day. The sampling one from epa was sent yesterday, but no mention of deq. Believe me, I know this is bigger than getting a pr plug. Would be nice, though, for us to get a mention.

Rodney - not sure what you are looking for? I saw sent you some guidance documents or something. We need to pull the IC into this type of request and you probably will need to ask JIC director for it.

The governor's office needs some prescriptive language from EPA on sheltering options and the state of air quality to put on their hotline for folks calling in. Anything we can get from David Gray on that? ☐
